

Sophos UTM 320

Unified protection for mid-sized business networks

- ▶ **Easy management:** You can manage all settings via a web-based graphical user interface (GUI). There's no need to use a command line or third-party software.
- ▶ **Extensive reporting:** Gain insight into system status, detected malware and accessed resources.
- ▶ **Clean Internet access:** Sophisticated network, mail and web filters protect your network and control application usage.
- ▶ **Protected data:** Strong encryption protects data transferred between offices and mobile workers or delivered via email.
- ▶ **Complete UTM protection:** The full suite of optional security features is available on all Sophos UTM appliances.
- ▶ **Flexible deployment:** Securely connect branch offices to your headquarters while completely protecting small business locations.

Sophos UTM 320 is designed to protect mid-sized businesses and enterprise divisions. Based on high quality Intel-compatible server systems equipped with gigabit-speed network ports, it provides high flexibility and throughput at an excellent price-to-performance ratio.

Deployment scenario of Sophos UTM 320

Your Benefits

- ▶ Comprehensive enterprise-class security even for the small to mid-size business
- ▶ Familiar web-based graphical user interface (GUI) for complete system management
- ▶ End-user self-servicing portal frees administrators from daily spam and VPN management tasks
- ▶ Automatic system updates make manual software downloads unnecessary
- ▶ Integrated hard drive for full local logging, reporting and email quarantine management

Technical Specifications

Appliance	Sophos UTM 320
Security applications	
Essential Network Firewall	Included
UTM Network Protection	Optional subscription
UTM Email Protection	Optional subscription
UTM Web Protection	Optional subscription
UTM Webserver Protection	Optional subscription
UTM Wireless Protection	Optional subscription
UTM Endpoint Protection	Optional subscription
Capacity	
Maximum licensed users	Unrestricted
Firewall throughput	3.5 Gbps
IPS throughput	1.9 Gbps
VPN throughput	800 Mbps
Antivirus throughput (proxy)	375 Mbps
RED throughput	120 Mbps
Email throughput (scanned/seen)	78,000/600,000 emails/h
Concurrent connections	2 Million
Hard drive for local quarantine and logs	Integrated
Physical interfaces	
Ethernet interfaces	8xGigabit Ethernet
I/O ports	2xUSB, 1xCOM (RJ45), 1xVGA
LED display	Power, HDD
Power supply	200W ATX: 100-240VAC, 50-60Hz, 3-6A
Physical specifications	
Mounting	1U rack mount
Dimensions (WxHxD)	426x44x365mm
Weight	5.5 kg/12lbs
Power consumption (standby/full)	70.27 Watts
Operating temperature	0-40°C (operating), -20-80°C (storage)
Humidity	10%-90%, non-condensing
Safety regulations	
Certifications	CE, FCC Class A, CB, VCCI, C-Tick, UL

Hardware appliance

Add-ons

Every company's network and operating mode is different. We provide you with a number of add-ons you can select and combine to suit your needs.

Essential Network Firewall

Offers basic security functions to help protect your business network.

UTM Network Protection

Protects against sophisticated types of malware, worms and hacker exploits that can evade your basic firewall.

UTM Email Protection

Secures your corporate email from spam and viruses while protecting sensitive information from cybercriminals.

UTM Web Protection

Protects your employees from web threats while controlling how they spend time online.

UTM Webserver Protection

Protects your web servers and applications like Outlook Web Access (OWA) from modern hacker attacks.

UTM Endpoint Protection

Protects endpoints at any location against malware and data loss with a centrally deployed security agent.

UTM Wireless Protection

Dramatically simplifies the operation of secure and reliable wireless networks.

RED (Remote Ethernet Device)

It's the easiest and most affordable way to secure your branch offices.
