

Security made simple.

Modern networks and IT demands continue to get more complex, but your IT security doesn't have to. From network to endpoint to server security, our products are designed to eliminate complexity.

Network Protection

Our network security products include firewall, Wi-Fi, VPN, web and email protection. You'll have complete control over the security features you need all in one place. Plus our UTM is easy to deploy and manage so your users are always protected, wherever they roam.

SG UTM
The ultimate network security package.

XG Firewall
The next thing in next-gen.

Secure Wi-Fi
Super secure, super wi-fi.

Secure Web Gateway
Complete web protection everywhere.

Secure Email Gateway
Simple protection for a complex problem.

PureMessage
Good news for you. Bad news for spam.

Sophos Central
Synchronized security management.

Enduser & Server Protection

From PCs to smartphones, tablets and laptops, our endpoint protection keeps your users safe without getting in the way of their work — all within your antivirus budget.

Endpoint Protection
Comprehensive security for users and data.

Mobile Control
Countless devices, one solution.

Intercept X
A completely new approach to endpoint security.

SafeGuard Encryption
Protecting your data, wherever it goes.

Sophos Clean
Advanced scanner and malware removal tool.

Server Security
Security optimized for servers.

Sophos Home
Free protection for home computers.

Sophos Central

With Sophos Central you get a single up-to-date, Sophos-hosted platform that's simple and intuitive. Now you can create policies that apply to an individual and not just the device. With all your devices in a single location, you can correlate alerts to allow security decisions to be taken automatically.

Synchronized Security

By automating threat discovery, investigation, and response, Synchronized Security revolutionizes threat detection. Incident response times are reduced exponentially and tactical resources can be refocused on strategic analysis. Sophos Security Heartbeat is revolutionizing security by synchronizing next-generation network and next-generation endpoint security, giving you unparalleled protection.

Complete Security without Complexity

Security shouldn't slow you down. That's why we keep resource impact low. And, we work to make deployment, setting policy and clean-up easy. We give you protection wherever you need it: computers, laptops, mobile devices, virtual desktops and servers, as well as your network, web and email gateways.

Complete security means we don't just detect threats—we help you address every point in the security lifecycle. That's why industry analysts such as Gartner recognize us as a market leader for malware protection, data security and network security.

SophosLabs

We're focused on delivering the best IT security and data protection for businesses. Our threat analysts' research, as well as the powerful tools they develop, are at the heart of everything we do. We make sure your users stay safe by quickly finding the latest dangers and automatically updating protection for all of our customers.

Awards & Reviews

Analysts and reviewers recognize Sophos as an industry leader — year after year.

- Gartner Magic Quadrant Leader for Unified Threat Management (UTM), Endpoint Protection Platforms, and Mobile Data Protection
- Leader in The Forrester Wave™: Enterprise Mobile Management
- Winner of The Channel Company's CRN Award for Security Vendor of the Year two years in a row
